ASSOCIATED BODY EXPLAINS EXPENSE OF CHARITY WORK

Overhead Expense Cannot Be Set Up Against Results That Are Gained

REPORT TO SUPERVISORS SHOWS SYSTEM EMPLOYED

Activities of Thirty-seven Societies Composing Central Organization Given In Detail

It's not the percentage of expendi ture used up in overhead expenses that counts always, but the amount of better watch out for submarines, and work accomplished through that expenditure. Such is the contention of W. F. Frear, made in a letter to the board of supervisors, the three signing as members of a committee appointed by the Associated Charities, the reason for the committee being fully explained in the letter, addressed to mayor and supervisors, and read at last night's meeting of the board, which savs:

"Sirs:-At a recent meeting of the 'Associated Charities of Hawaii,' the undersigned were appointed a committee to prepare a report, which is submitted herewith, of the activities of the organization for the first half of the current year for presentation to you. At the same meeting there was discussed a question of interest not only to thin organization but to you and all other contributors to its work. namely, whether its overhead charges are excessive. The result was a consensus of opinion that such is not the

"The accompanying report shows, it is true for the half year in question there was expended directly in actual cash relief only \$1917.36 while the socalled overhead charges, including both salaries and expenses, amounted to \$3010.62. If the bald statement could be made truthfully that it cost \$2010.62 to dole out \$1917.36, the association would indeed merit the criti eism of excessive overhead charges. Many Cases Investigated

"That is far from the fact, however. In the first place, even if material re-lief alone be considered, it will be found that some \$4000 or so should be added for the relief furnished by thirty seven other organizations to 742 rsons investigated and reported on charges down to 33.77 cent of the entire expenditures or less than the percentages of similar charges Much Good Accomplished in the large banks, trust companies and sumar agencies in this city; for their percentages run from about 40 to 63 on the reports made, according to rent so far as figures have been

directions. deed, one of its objects and one of the justifications for its existence is the avoidance of a vast amount of financial relief that would otherwise be given indiscriminately and often with even harmful results. This is accompliched by careful investigation of what form the help may best be given for the purpose of preventing imposition and of enabling the dependent to

become independent and not become subject for perpetual charity. Charitable 'Clearing House' 'Further, this organization invest:

gates not alone for itself but also for umerous other organizations as well. It is an 'Associated Charities,' a sort of clearing house for all charitable or ganizations which may desire to avail themselves of its aid or to cooperate with it or through it with other orgamizations. Its aim is to put large matter of charity with all of its ramifications on a scientific and bustnesstike basis on permanent lines. do this, each case must be considered with care and intelligence, investigation must be made, information must he collected and preserved, records must be made, and close touch must be kept with all allied organizations. This requires trained workers and some money, but, as the report shows, only shout \$3000 was expended for salaries expenses of all kinds for the past

half year, "It is easy to present financial statistics. It is practically impossible and would be unwise and a violation of confidence to publish the story of what has been done for unfortunate humanity in countless other ways. Often, to give a man a dollar may mean only debauch, while to secure him employment, for instance, may mean a usefur citizen. The latter, however, appears in the financial statistics only as a socalled overhead charge. It may mean valuable personal service as distinguished from useless or harmful pe cuniary donation. The report shows nevertheless, a wide range of activities among all nationalities and in cooperation with numerous other organizations resulting in appropriate assist of many kinds."

The statistical statement accompany ing the letter shows that the receipts r onths of the year have been \$10,789. of which \$123.28 was balance on t'e greater part came from subscriptions, amounting to \$7920.15. The city contributed \$400, work earried on re think it needs, when you can urge with ing beyond their range if they were ways have such a voice as well as a Kanna, G. D. O'Niel, Mr. and Mrs. Mrs. Cornish, Miss Warnock, A. D.

or trust funds brought in \$385. Office expenses required \$3010.62, the Shingle. it- m covering salaries, rent, telephone. li bt, stationery, postage and a die a "special fund" deht to Miss thought the Charities would do for the the land. Without a mobile land force efficient a budget, system should be M. Campbell, T. J. K. Evans, St. C. Panking, C. E. Ruell, Mr. and Meon certificate of deposit \$3000. The rest at that point.

Lusitania Survivor Carries Life-Belt in Niagara's Cabin

G. Turton Escaped Death, But Brother of Another Passenger Among Lost

A life preserver from the lost Cunard liner Lusitania hangs in the stateroom of G. Turton, a passenger on the steam er Ningara, here yesterday from Vanentiver for Sydney. Mr. Turton was in the liner when she was struck by a TERRITORY SHOULD German torpedo, and he is keeping the preserver as a souvenir of his for he wore it about him until he was picked up. It is like a waistcoat, fitchest, instead of being the usual belt

Joke Was Prophecy Mr. Turton is managing director of a big insurance company of Australia, with headquarters in Sydney, and he was a passenger on the Niagara bound for Europe recently.

"We joked with him and told him he he laughed at us; but one nearly got Mayor Lane brought to the attention him, ' said Purser A. R. Thompson. diture. Such is the contestion of Also struck by the Lusitania dis-Messrs. J. B. Galt, W. A. Bowen and aster was F. W. Learoyd, whose brother was lost with the ship. His wife was attention yesterday the first report of saved. Mr. Learoyd is returning to the the league's army committee, a copy brother's estate

Thirty Sail For South Capt. J. T. Rolls brought the ship to Honolulu yesterday morning, and said one of those active in the more she snifed at three-fifteen o'clock yesterday afternoon for Suva, Auckland Territory should most be interested in and Sydney, Passengers for Honolulu were nineteen first cabin, fourteen second-cabin and eight steerage. Through passengers are seventy two first-cabin forty-seven second-cabin and seventy The Ningara took thirty out steerage. M. Schoonmaker, vice president of the emposed of J. ting over the arms as well as about the One Commerce Chamber Director Asks If Defense Organization Is Bonding Company

Those interested in the formation of Hawaiian branch of the National Security League, a movement which of the chamber of commerce at the last meeting of its directors, read with Colonies from a trip of settling up his of which, just received, was furnished to The Advertiser.

said one of those active in the movement yesterday. "Of all places, this roblems of national security, yet when the league was mentioned by name last Tuesday one of the directors inquired placidly if it was a bonding company! Henry L. Stimson, former secretary

of war, is chairman of the army comin the three cabins. Arriving were J. mittee of the league. His report, after M. Schoolmaker, vice president of the going deeply into the problems of de New York Central lines, Mrs. School-fense, concludes that it would be a maker, two children and their party. Itanse, concludes that it would be a task of little difficulty for an invader Email Force Scattered

Twenty-five thousand regulars and 60,000 militia, " the report states, "constitute our total defensive mobile force for the protection of many thousands of miles of coast and land frontier. This force in small detachments is so scatof which flour is an important ftem, of the land that it would be next to impossible to concentrate it on one coast in less than a month. We have but to recall the events of the opening period of the present conflict in Europe to form a very accurate judgment of the de eisive steps an invader might take dur ing the month required to assemble our mall army.

'Quite aside from its weakness in umbem ithis force would be poorly trained, kastily and ineffectually organized, ill-balanced, incompletely equipped, and lacking in such essentists as light and heavy artillery and the am-munition to serve it. Brigades and The thirty seven societies which make munition to serve it. Brigades and up the Associated Charities expended, divisions would be brought together for g the first time, the majority of them conservative estimate, some \$4000, under commanders who had never comwhich makes the total for relief through | manded complete units of that size ever "The dispensing of cash relief, however, is only one and that not the works out, then, at 66.23 per cent of appointed staff officers more or less reset important of the functions of the total expenditures of the six unfamiliar with their duties.

From commander to the lowest pri the unhomogeneous command has had 335 families, including 1170 would be lacking in that ability for individuals, under care. The cases of team work which is acquired only with sixty-five families, including 231 in training and is essential to military dividuals, have been investigated at success. This is the force with which the request of the contributing organi- we have to meet an invading army that zations and others, which organizations would be vastly superior in numbers each case in order to ascertain whether have also accepted whole or partial and training, perfectly organized, comcommanders. With ordinary fortunes of war, the probable outcome is so ap parent that it need not be stated.

"The great armed nations of the world have sufficient merchant shipping Beretania Settlement, Central Union to transport to our shores, in a single we can possibly concentrate against it. business firms, Spanish consul, Y. M. This statement is well within the truth and takes account of only such ship ping as could be collected in home ports can be landed on our shores in successive expeditions, unless we are strong enough on land to prevent it, is so vast as to be almost unbelievable.

Coast Defenses Valueless "The sea is no longer a barrier the days of slow-going salling craft, few tion, armament and all other war ma in numbers and of small tonnage, when terinis a voyage across the seas required weeks a voyage across the seas required weeks instead of days, and a single ship could carry but hundreds instead of thousands of the war, four to six months of men. Vulnerable To Hostile Ships

PASSENGER SERVICE OF MATSON COMPANY MAY BE WITHDRAWN

President Says This Will Be Done If Foreign Ships Enter Coast Hawaii Trade

(Associated Press by Federal Wireless.) AN PRANCISCO, August 12. -Capt, William Matson, head of the Matton Navigation Company, said today that he does not expect the coastwise shipping law to be suspended in the case of Hawait, as has been suggested in order to allow foreign ships to carry passengers between the Islands and the Coast. Captain Matson declares he would fight consideration of the matter before congress and asserts that if the coastwise law is suspended as proposed, he will withdraw the Matson Navigation Company's passenger service.

GREATER LAND FORCE IS NEEDED IN HAWAII

Increased Navy Force Also Essential, Says Judge Gary

This is what Judge Elbert H. Gary, gust 11, str. Dakotan, from Hilo, chairman of the executive committee July 13.
of the United States Steel Corporation, said for publication when he returned to San Francisco from Homolulu. ulu, with reference to the defenses of the Territory of linwaii:

"What is most needed in Hawaii is greater land force to defend the Islands and a much increased navy

force to protect it from attack.
"The United States must have arger navy, and we should begin building ships at once. From my observations in Hawaii I am convinced that a foreign force could easily take the Islands as there is no adequate pro-

"I believe the Islands can be made the greatest haval base in the world due to their strategic position. Hawaii should be strongly fortified and that as scou as possible.
